### NTT DOCOMO's New Optical Fiber Broadband Service and Bundled Discounts

#### 1. docomo Hikari

##### (1) Charges

Three billing plans are available—ISP Charge-inclusive Package (Type A and Type B) and Standalone Package. ISP Charge-inclusive Package Type A and Type B offer “docomo Hikari™” together with partner ISPs for selection by the subscriber (available ISPs are listed on the company’s website). Customers also can select Standalone Package that only covers the docomo Hikari optical fiber broadband service, which requires an additional contract with any ISP for Internet access. In each plan, charges differ by residential type—either detached house or apartment. ISP Charge-inclusive Package Type A and Standalone Package will be launched on March 1 (subject to change) and ISP Charge-inclusive Package Type B in June.

##### I. Monthly charges

Breakdown			Charge for 2-year contract <sup>*1</sup>
ISP Charge-inclusive Package	Type A	Detached house	5,200 yen

		Apartment	4,200 yen
Standalone Package (ISP not included <sup>*2</sup> )		Detached house	5,000 yen
		Apartment	3,800 yen

\*1 Two-year contract requires the same subscription for two years. Cancelling the plan during the contract period (except in the month following contract renewal month) incurs a fee of 13,000 yen for detached house and 8,000 yen for apartment. Information about charges for open contracts will be provided on the company’s website.
